Managing Emerging Contaminants in Watersheds: Need for Comprehensive, Systems-Based Strategies

Ammara Talib, Timothy O. Randhir

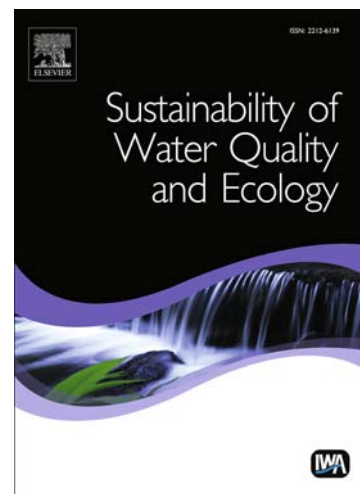

PII: S2212-6139(16)30023-X
DOI: <http://dx.doi.org/10.1016/j.swaqe.2016.05.002>
Reference: SWAQE 50

To appear in: *Sustainability of Water Quality and Ecology*

Received Date: 14 March 2016
Revised Date: 17 May 2016
Accepted Date: 20 May 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**MANAGING EMERGING CONTAMINANTS IN WATERSHEDS: NEED FOR
COMPREHENSIVE, SYSTEMS-BASED STRATEGIES**

Ammara Talib¹ and Timothy O. Randhir^{2*}

1. Graduate Student and 2. Professor (* Corresponding Author), respectively,

Department of Environmental Conservation, University of Massachusetts,

Amherst, MA 01003, USA. Email: randhir@eco.umass.edu, Phone: +14135453969
