This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

*‘What is known about community pharmacy supply of naloxone’: A scoping review.*

## Highlights :

- Take-home naloxone may be expanded through community pharmacy
- Early work indicates pharmacists are willing to supply naloxone
- Existing models for community pharmacy of naloxone supply exist
- Supply models have important cost implications for consumers
- Larger implementation studies are needed to determine effectiveness
