Technology-assisted risk of bias assessment in systematic reviews: A prospective cross-sectional evaluation of the RobotReviewer machine learning tool

Allison Gates, PhD, Ben Vandermeer, MSc, Lisa Hartling, PhD

PII: S0895-4356(17)30472-9

DOI: [10.1016/j.jclinepi.2017.12.015](https://doi.org/10.1016/j.jclinepi.2017.12.015)

Reference: JCE 9564

To appear in: *Journal of Clinical Epidemiology*

Received Date: 3 May 2017

Revised Date: 22 November 2017

Accepted Date: 14 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Journal of Clinical Epidemiology: Original Research**

**Title:** Technology-assisted risk of bias assessment in systematic reviews: A prospective cross-sectional evaluation of the RobotReviewer machine learning tool

**More Informative Title:** A prospective cross-sectional evaluation of RobotReviewer in systematic reviews revealed slight to moderate agreement with human reviewers across risk of bias domains

**Authors:** Allison Gates, PhD; Ben Vandermeer, MSc; Lisa Hartling, PhD

**Affiliation:**

Alberta Research Centre for Health Evidence (ARCHE), Department of Pediatrics, University of Alberta  
Edmonton Clinic Health Academy  
11405-87 Avenue NW  
Edmonton, Alberta T6G 1C9  
Canada

**Correspondence:**

Lisa Hartling, 4-472, Edmonton Clinic Health Academy, University of Alberta, 11405-87 Avenue NW

**Funding and Conflicts of Interest:**

LH received salary support through a New Investigator Award from the Canadian Institutes of Health Research. The funder played no role in the design of the study; the collection, analysis and interpretation of the data; the writing of the report; nor the decision to submit the article for publication. We have no conflicts of interest to declare.
