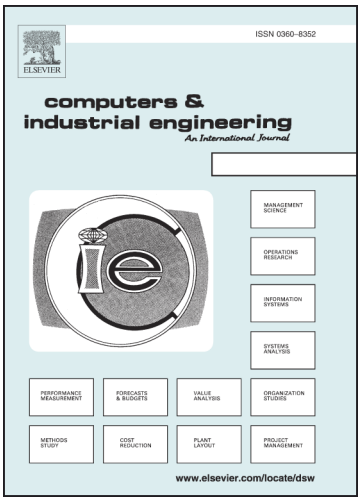
Accepted Manuscript



An introductory guide for hybrid simulation modelers on the primary simulation methods in industrial engineering identified through a systematic review of the literature

Anna Paula Galvão Scheidegger, Tábata Fernandes Pereira, Mona Liza Moura de Oliveira, Amarnath Banerjee, José Arnaldo Barra Montevechi

PII: S0360-8352(18)30369-3
DOI: https://doi.org/10.1016/j.cie.2018.07.046
Reference: CAIE 5346

To appear in: *Computers & Industrial Engineering*

Received Date: 16 April 2018
Revised Date: 2 July 2018
Accepted Date: 27 July 2018

Please cite this article as: Paula Galvão Scheidegger, A., Fernandes Pereira, T., Liza Moura de Oliveira, M., Banerjee, A., Arnaldo Barra Montevechi, J., An introductory guide for hybrid simulation modelers on the primary simulation methods in industrial engineering identified through a systematic review of the literature, *Computers & Industrial Engineering* (2018), doi: https://doi.org/10.1016/j.cie.2018.07.046

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
