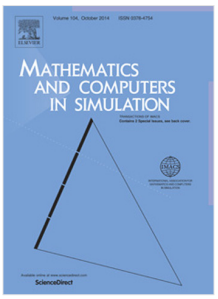
Accepted Manuscript



Instability and acoustic fields of the Rankine vortex as seen from long-term calculations with the tenth-order multioperators-based scheme

Andrei I. Tolstykh, Michael V. Lipavskii

PII: S0378-4754(17)30320-8
DOI: http://dx.doi.org/10.1016/j.matcom.2017.08.006
Reference: MATCOM 4493

To appear in: *Mathematics and Computers in Simulation*

Received date : 1 December 2015
Revised date : 25 July 2017
Accepted date : 28 August 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
