

## Accepted Manuscript

Latent variable selection in structural equation models

Yan-Qing Zhang, Guo-Liang Tian, Nian-Sheng Tang

PII: S0047-259X(16)30068-9

DOI: <http://dx.doi.org/10.1016/j.jmva.2016.08.004>

Reference: YJMVA 4148

To appear in: *Journal of Multivariate Analysis*

Received date: 16 July 2015

Please cite this article as: Y.-Q. Zhang, G.-L. Tian, N.-S. Tang, Latent variable selection in structural equation models, *Journal of Multivariate Analysis* (2016), <http://dx.doi.org/10.1016/j.jmva.2016.08.004>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

1. Propose a PL method to identify the structure of coefficient matrix
2. show the consistency and the oracle property of the proposed estimators
3. propose a minorization--maximization algorithm to facilitate the second M-step
