The use of infrared spectroscopic techniques to characterize nanomaterials and nanostructures: A review

Marcela Dendisová, Adéla Jenišťová, Alžběta Parchaňská-Kokaislová, Pavel Matějka, Vadym Prokopec, Marie Švecová

PII: S0003-2670(18)30664-0

DOI: [10.1016/j.aca.2018.05.046](https://doi.org/10.1016/j.aca.2018.05.046)

Reference: ACA 235983

To appear in: *Analytica Chimica Acta*

Received Date: 31 October 2017

Revised Date: 15 May 2018

Accepted Date: 16 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
