Speeding up the extraction of hexabromocyclododecane enantiomers in soils and sediments based on halogen bonding

A.B. Lara, C. Caballo Sicilia, M.D., S. Rubio

PII: S0003-2670(18)30573-7

DOI: [10.1016/j.aca.2018.05.002](https://doi.org/10.1016/j.aca.2018.05.002)

Reference: ACA 235938

To appear in: *Analytica Chimica Acta*

Received Date: 14 February 2018

Revised Date: 25 April 2018

Accepted Date: 1 May 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
