Oxidative polymerization of 5-hydroxytryptamine to physically and chemically immobilize glucose oxidase for electrochemical biosensing

Ting Huang, Zaichun Liu, Yunlong Li, Yanqiu Li, Long Chao, Chao Chen, Yueming Tan, Qingji Xie, Shouzhao Yao, Yuping Wu

PII: S0003-2670(18)30209-5

DOI: [10.1016/j.aca.2018.02.020](https://doi.org/10.1016/j.aca.2018.02.020)

Reference: ACA 235736

To appear in: *Analytica Chimica Acta*

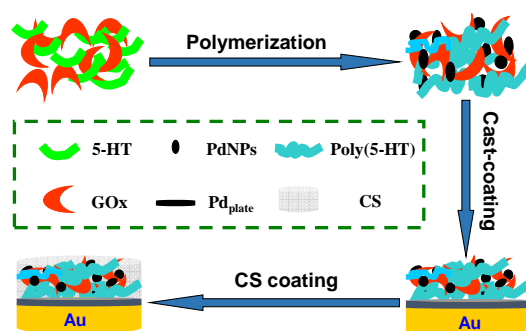

Received Date: 12 August 2017

Accepted Date: 9 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
