Accepted Manuscript

A novel fluorescence biosensor for sensitivity detection of tyrosinase and acid phosphatase based on nitrogen-doped graphene quantum dots

Zhengyi Qu, Weidan Na, Xiaotong Liu, Hua Liu, Xingguang Su

PII: S0003-2670(17)31152-2

DOI: 10.1016/j.aca.2017.10.010

Reference: ACA 235481

To appear in: Analytica Chimica Acta

Received Date: 12 July 2017

Revised Date: 29 September 2017

Accepted Date: 5 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
