Loop-mediated isothermal amplification using self-avoiding molecular recognition systems and antarctic thermal sensitive uracil-DNA-glycosylase for detection of nucleic acid with prevention of carryover contamination

Yi Wang, Dongxin Liu, Jianping Deng, Yan Wang, Jianguo Xu, Changyun Ye

PII: S0003-2670(17)31181-9

DOI: [10.1016/j.aca.2017.10.022](https://doi.org/10.1016/j.aca.2017.10.022)

Reference: ACA 235496

To appear in: *Analytica Chimica Acta*

Received Date: 29 July 2017

Revised Date: 11 October 2017

Accepted Date: 21 October 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
