

Accepted Manuscript

Title: Characterisation and determination of fullerenes: A critical review

Author: Alina Astefanei Oscar Núñez Maria Teresa Galceran

PII: S0003-2670(15)00374-8
DOI: <http://dx.doi.org/doi:10.1016/j.aca.2015.03.025>
Reference: ACA 233811

To appear in: *Analytica Chimica Acta*

Received date: 22-12-2014
Revised date: 13-3-2015
Accepted date: 16-3-2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Characterisation and determination of fullerenes: A critical review.

Alina Astefanei^a, Oscar Núñez^{a,b} and Maria Teresa Galceran^{a,*}

^aDepartment of Analytical Chemistry, University of Barcelona. Martí i Franquès 1-11, E08028 Barcelona, Spain

^bSerra Hunter Fellow, Generalitat de Catalunya, Spain.

e-mail: mtgalceran@ub.edu

Highlights

- Methodologies for fullerene aggregate characterization are discussed.
- Chromatographic and electrophoretic techniques for fullerene analysis are presented.
- Accurate identification and detection of fullerenes by LC-MS is critically reviewed.
