Misuse of Thermodynamics in the Interpretation of Isothermal Titration Calorimetry Data for Ligand Binding to Proteins

Brian A. Pethica

PII: S0003-2697(14)00531-4
DOI: <http://dx.doi.org/10.1016/j.ab.2014.11.010>
Reference: YABIO 11910

To appear in: *Analytical Biochemistry*

Received Date: 28 February 2014
Revised Date: 7 November 2014
Accepted Date: 12 November 2014

Please cite this article as: B.A. Pethica, Misuse of Thermodynamics in the Interpretation of Isothermal Titration Calorimetry Data for Ligand Binding to Proteins, *Analytical Biochemistry* (2014), doi: <http://dx.doi.org/10.1016/j.ab.2014.11.010>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Misuse of Thermodynamics in the Interpretation of Isothermal Titration Calorimetry Data
for Ligand Binding to Proteins
