

## Accepted Manuscript

An in vitro and in silico study on the antioxidant and cell culture – based study on the chemoprotective activities of fish muscle protein hydrolysates obtained from European seabass and gilthead seabream

Can Altinelataman, Olga Koroleva, Tatyana Fedorova, Anna Torkova, Ksenia Lisitskaya, Mikhail Tsentalovich, Aleksey Kononikhin, Igor Popov, Daria Vasina, Leonid Kovalyov, Ufuk Çelik

PII: S0308-8146(18)31392-X  
DOI: <https://doi.org/10.1016/j.foodchem.2018.08.004>  
Reference: FOCH 23345

To appear in: *Food Chemistry*

Received Date: 26 April 2018  
Revised Date: 27 July 2018  
Accepted Date: 2 August 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**An in vitro and in silico study on the antioxidant and cell culture – based study on the chemoprotective activities of fish muscle protein hydrolysates obtained from European seabass and gilthead seabream**
