

## Accepted Manuscript

Integrated analyses of phenolic compounds and minerals of Brazilian organic and conventional grape juices and wines: Validation of a method for determination of Cu, Fe and Mn

Maria da Conceição Prudêncio Dutra, Lucicleide Leonice Rodrigues, Débora de Oliveira, Giuliano Elias Pereira, Marcos dos Santos Lima

PII: S0308-8146(18)31155-5  
DOI: <https://doi.org/10.1016/j.foodchem.2018.07.014>  
Reference: FOCH 23129

To appear in: *Food Chemistry*

Received Date: 4 April 2018  
Revised Date: 1 July 2018  
Accepted Date: 2 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Integrated analyses of phenolic compounds and minerals of Brazilian organic and conventional grape juices and wines: Validation of a method for determination of Cu, Fe and Mn**

Short title: Chemical characterization of grape juices and wines:  
organic vs conventional
