Impact of electrical conductivity on acid hydrolysis of guar gum under induced electric field

Dandan Li, Yao Zhang, Na Yang, Zhengyu Jin, Xueming Xu

PII: S0308-8146(18)30524-7

DOI: <https://doi.org/10.1016/j.foodchem.2018.03.091>

Reference: FOCH 22634

To appear in: *Food Chemistry*

Received Date: 20 October 2017

Revised Date: 18 March 2018

Accepted Date: 20 March 2018

Please cite this article as: Li, D., Zhang, Y., Yang, N., Jin, Z., Xu, X., Impact of electrical conductivity on acid hydrolysis of guar gum under induced electric field, *Food Chemistry* (2018), doi: <https://doi.org/10.1016/j.foodchem.2018.03.091>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impact of electrical conductivity on acid hydrolysis of guar gum under induced electric field
