Preparation and stability of resistant starch nanoparticles, using acid hydrolysis and cross-linking of waxy rice starch

Onbit Jeong, Malshick Shin

PII: S0308-8146(18)30335-2

DOI: <https://doi.org/10.1016/j.foodchem.2018.02.098>

Reference: FOCH 22482

To appear in: *Food Chemistry*

Received Date: 7 September 2017

Revised Date: 26 January 2018

Accepted Date: 19 February 2018

Please cite this article as: Jeong, O., Shin, M., Preparation and stability of resistant starch nanoparticles, using acid hydrolysis and cross-linking of waxy rice starch, *Food Chemistry* (2018), doi: <https://doi.org/10.1016/j.foodchem.2018.02.098>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Preparation and stability of resistant starch nanoparticles, using acid hydrolysis and cross-linking of
waxy rice starch

Onbit Jeong^a, Malshick Shin^{a*}
