This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Improvement in the stability of betanin by liposomal nanocarriers: its application in
gummy candy as a food model**

Running title: Nanocarriers for the improvement of betanin stability in a food model

Sajed Amjadi^{1,2}, Marjan Ghorbani³, Hamed Hamishehkar^{4*}, Leila Roufegarinejad^{1*}
