Structure–activity relationships between sterols and their thermal stability in oil matrix

Yinzhou Hu, Junli Xu, Weisu Huang, Yajing Zhao, Maiquan Li, Mengmeng Wang, Lufei Zheng, Baiyi Lu

PII: S0308-8146(18)30519-3
DOI: <https://doi.org/10.1016/j.foodchem.2018.03.086>
Reference: FOCH 22629

To appear in: *Food Chemistry*

Received Date: 27 October 2017
Revised Date: 17 March 2018
Accepted Date: 20 March 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Structure–activity relationships between sterols and their thermal stability in oil matrix
