Multiresidue determination of pesticides in tea by liquid chromatography-high-resolution mass spectrometry: comparison between Orbitrap and time-of-flight mass analyzers

Shizuka Saito-Shida, Tomoko Hamasaka, Satoru Nemoto, Hiroshi Akiyama

PII: S0308-8146(18)30371-6

DOI: <https://doi.org/10.1016/j.foodchem.2018.02.123>

Reference: FOCH 22507

To appear in: *Food Chemistry*

Received Date: 27 October 2017

Revised Date: 23 February 2018

Accepted Date: 23 February 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Multiresidue determination of pesticides in tea by liquid

chromatography-high-resolution mass spectrometry: comparison between

Orbitrap and time-of-flight mass analyzers

Shizuka Saito-Shida^{a*}, Tomoko Hamasaka^b, Satoru Nemoto^a, Hiroshi Akiyama^a
