

Accepted Manuscript

Activation of membrane-located Ca^{2+} channels by hop beta acids and their tricyclic transformation products

Carolin Schulz, Nikolas Fritz, Thomas Sommer, Karel Krofta, Kristina Friedland, Monika Pischetsrieder

PII: S0308-8146(18)30081-5

DOI: <https://doi.org/10.1016/j.foodchem.2018.01.073>

Reference: FOCH 22262

To appear in: *Food Chemistry*

Received Date: 21 September 2017

Revised Date: 11 December 2017

Accepted Date: 9 January 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Activation of membrane-located Ca^{2+} channels by hop beta acids and their tricyclic transformation products
