## Accepted Manuscript

Short communication

Dissociation mechanisms-based UHPLC Q-Orbitrap strategy for screening of cephalosporins and metabolites in shrimp

Wei Jia, Lin Shi, Xiaogang Chu

PII: S0308-8146(18)30046-3

DOI: https://doi.org/10.1016/j.foodchem.2018.01.037

Reference: FOCH 22226

To appear in: Food Chemistry

Received Date: 31 October 2017 Revised Date: 21 December 2017 Accepted Date: 3 January 2018

Please cite this article as: Jia, W., Shi, L., Chu, X., Dissociation mechanisms-based UHPLC Q-Orbitrap strategy for screening of cephalosporins and metabolites in shrimp, *Food Chemistry* (2018), doi: https://doi.org/10.1016/j.foodchem.2018.01.037

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
