The roles of ROS production-scavenging system in *Lasiodiplodia theobromae* (Pat.) Griff. & Maubl.-induced pericarp browning and disease development of harvested longan fruit

Junzheng Sun, Hetong Lin, Shen Zhang, Yifen Lin, Hui Wang, Mengshi Lin, Yen-Con Hung, Yihui Chen

PII: S0308-8146(17)31956-8
DOI: <https://doi.org/10.1016/j.foodchem.2017.12.017>
Reference: FOCH 22114

To appear in: *Food Chemistry*

Received Date: 28 August 2017
Revised Date: 4 December 2017
Accepted Date: 6 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Running title: ROS metabolism in pathogen induced-browning and disease development

The roles of ROS production-scavenging system in *Lasiodiplodia theobromae* (Pat.) Griff. & Maubl.-induced pericarp browning and disease development of harvested longan fruit
