

## Accepted Manuscript

Correlation of Lithium Bioaccessibility from Tea (*Camellia sinensis* L.) with Tea Type and Consumption Habits

Umrhan Seven Erdemir, Seref Gucer

PII: S0308-8146(17)31685-0

DOI: <https://doi.org/10.1016/j.foodchem.2017.10.053>

Reference: FOCH 21876

To appear in: *Food Chemistry*

Received Date: 3 April 2017

Revised Date: 19 September 2017

Accepted Date: 9 October 2017

Please cite this article as: Erdemir, U.S., Gucer, S., Correlation of Lithium Bioaccessibility from Tea (*Camellia sinensis* L.) with Tea Type and Consumption Habits, *Food Chemistry* (2017), doi: <https://doi.org/10.1016/j.foodchem.2017.10.053>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Correlation of Lithium Bioaccessibility from Tea (*Camellia sinensis* L.) with Tea Type and Consumption Habits**
