Generation of Bioactive Peptide Hydrolysates from Cattle Plasma Using Plant and Fungal Proteases

Clara S.F. Bah, Alaa El-Din A. Bekhit, Michelle A. McConnell, Alan Carne

PII: S0308-8146(16)30958-X
DOI: <http://dx.doi.org/10.1016/j.foodchem.2016.06.065>
Reference: FOCH 19406

To appear in: *Food Chemistry*

Received Date: 23 April 2016
Revised Date: 19 June 2016
Accepted Date: 21 June 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Generation of Bioactive Peptide Hydrolysates from Cattle Plasma Using Plant and
Fungal Proteases**

Running title: Identification of bioactive peptides from cow plasma
