Chemical characterisation and *in vitro* assessment of the nutritive value of co-products yield from the corn wet-milling process

Paul Malumba, Christelle Boudry, Olivier Roiseux, Jérôme Bindelle, Yves Beckers, François Béra

PII: S0308-8146(14)00885-1
DOI: <http://dx.doi.org/10.1016/j.foodchem.2014.06.001>
Reference: FOCH 15941

To appear in: *Food Chemistry*

Received Date: 13 February 2014
Revised Date: 21 May 2014
Accepted Date: 1 June 2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Chemical characterisation and *in vitro* assessment of the nutritive value of co-products yield from the corn wet-milling process

Suggestion for an abbreviated running title:

Nutritional value of the corn wet-milling process's co-products
