

Accepted Manuscript

Title: Sequence analysis of cyclic polyester copolymers using ion mobility tandem mass spectrometry

Authors: Nicolas E. Alexander, John P. Swanson, Abraham Joy, Chrys Wesdemiotis

PII: S1387-3806(17)30072-6
DOI: <http://dx.doi.org/doi:10.1016/j.ijms.2017.07.019>
Reference: MASPEC 15841

To appear in: *International Journal of Mass Spectrometry*

Received date: 14-2-2017
Revised date: 27-6-2017
Accepted date: 28-7-2017

Please cite this article as: Nicolas E.Alexander, John P.Swanson, Abraham Joy, Chrys Wesdemiotis, Sequence analysis of cyclic polyester copolymers using ion mobility tandem mass spectrometry, *International Journal of Mass Spectrometry*<http://dx.doi.org/10.1016/j.ijms.2017.07.019>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

International Journal of Mass Spectrometry – Terrance B. McMahon Issue

27 June 2017

Sequence analysis of cyclic polyester copolymers using ion mobility tandem mass spectrometry
