

Accepted Manuscript

Title: Non-isothermal pyrolysis properties of *Laminaria japonica*

Authors: Tae Uk Han, Young-Min Kim, Muhammad Zain Siddiqui, Taeho Lee, Atsushi Watanabe, Norio Teramae, Seungdo Kim, Young-Kwon Park

PII: S0165-2370(17)30794-5
DOI: <https://doi.org/10.1016/j.jaap.2017.12.021>
Reference: JAAP 4220

To appear in: *J. Anal. Appl. Pyrolysis*

Received date: 9-9-2017
Revised date: 30-12-2017
Accepted date: 31-12-2017

Please cite this article as: Tae Uk Han, Young-Min Kim, Muhammad Zain Siddiqui, Taeho Lee, Atsushi Watanabe, Norio Teramae, Seungdo Kim, Young-Kwon Park, Non-isothermal pyrolysis properties of *Laminaria japonica*, Journal of Analytical and Applied Pyrolysis <https://doi.org/10.1016/j.jaap.2017.12.021>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Non-isothermal pyrolysis properties of *Laminaria japonica*

Highlights

- Pyrolysis reaction pathway of *L. Japonica* was investigated using TGA and Py-GC/MS.
- Pyrolysis of *L. Japonica* was accounted for three independent decomposition reactions of biomass components.
