

Accepted Manuscript

Title: Likelihood of total resolution in selective comprehensive two-dimensional liquid chromatography with parallel processing: simulation and theory

Authors: Joe M. Davis, Dwight R. Stoll

PII: S0021-9673(17)31814-9
DOI: <https://doi.org/10.1016/j.chroma.2017.12.035>
Reference: CHROMA 359091

To appear in: *Journal of Chromatography A*

Received date: 11-8-2017
Revised date: 24-11-2017
Accepted date: 12-12-2017

Please cite this article as: Davis JM, Stoll DR, Likelihood of total resolution in selective comprehensive two-dimensional liquid chromatography with parallel processing: simulation and theory, *Journal of Chromatography A* (2010), <https://doi.org/10.1016/j.chroma.2017.12.035>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Likelihood of total resolution in selective comprehensive two-dimensional liquid chromatography with parallel processing: simulation and theory
