Title: Impact of CO₂-Solvent Separators on the Degradation of Benzyl-2,3-Dihydropiperidine-1-Car-boxylate During Preparative Supercritical-Fluid Chromatographic (SFC) Purification

Authors: Kathiravan Asokan, Harshavardhan Naidu, Ratalababu Madam, Khaja Mohiuddin Shaikh, Manjunath Reddy, Hemantha Kumar, Pravin S. Shirude, Muruganantham Rajendran, Ramakanth Sarabu, Dauh-Rung Wu, Lakshmikant Bajpai, Yingru Zhang

PII: S0021-9673(17)31673-4
DOI: <https://doi.org/10.1016/j.chroma.2017.11.025>
Reference: CHROMA 359009

To appear in: *Journal of Chromatography A*

Received date: 17-8-2017
Revised date: 12-11-2017
Accepted date: 13-11-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Impact of CO₂-Solvent Separators on the Degradation of Benzyl-2, 3-Dihydroxypiperidine-1-Carboxylate During Preparative Supercritical-Fluid Chromatographic (SFC) Purification

Highlights

- Demonstrated the degradation of acid-sensitive **benzyl-2, 3-dihydroxypiperidine-1-carboxylate** during SFC fraction collection with methanol as the modifier.
