

## Accepted Manuscript

Title: *In situ* immobilization of layered double hydroxides as stationary phase for capillary electrochromatography

Authors: Xinhong Yu, Wei Zhou, Zilin Chen

PII: S0021-9673(17)31669-2  
DOI: <https://doi.org/10.1016/j.chroma.2017.11.021>  
Reference: CHROMA 359005

To appear in: *Journal of Chromatography A*

Received date: 8-8-2017  
Revised date: 5-11-2017  
Accepted date: 12-11-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***In situ* immobilization of layered double hydroxides as stationary  
phase for capillary electrochromatography**

**Highlights**

- Layered double hydroxides were successfully *in situ* immobilized on capillary
- A novel CoAl-LDHs-modified open-tubular capillary was developed for CEC separation
