Accepted Manuscript

Title: Herbs and spices: characterization and quantitation of biologically-active markers for routine quality control by multiple headspace solid-phase microextraction combined with separative or non-separative analysis

Author: Barbara Sgorbini Carlo Bicchi Cecilia Cagliero

Chiara Cordero Erica Liberto Patrizia Rubiolo

PII: S0021-9673(14)01892-5

DOI: http://dx.doi.org/doi:10.1016/j.chroma.2014.12.007

Reference: CHROMA 356080

To appear in: Journal of Chromatography A

Received date: 25-7-2014 Revised date: 1-12-2014 Accepted date: 2-12-2014

Rubiolo, Herbs and spices: characterization and quantitation of biologically-active markers for routine quality control by multiple headspace solid-phase microextraction combined with separative or non-separative analysis, *Journal of Chromatography A* (2014), http://dx.doi.org/10.1016/j.chroma.2014.12.007

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

- Direct quali- and quantitative analysis of solid matrices as such
 Quantitation of selected flavor, taxonomic or biologically active plant markers
 Speeding-up of Multiple Headspace Extraction quantitative analysis
 Non-separative methods in a single step analysis of solid matrices
