

## Accepted Manuscript

An optimized LC-MS/MS method for determination of HYNIC-3PRGD2, a new promising imaging agent for tumor targeting, in rat plasma and its application

Liyun Niu, Jian Li, Ruolan Gu, Zhuona Wu, Xiaoxia Zhu, Hui Gan, Baiping Ma, Bing Jia, Fan Wang, Zhiyun Meng, Xinyu Wang, Guifang Dou

PII: S1570-0232(17)31835-4  
DOI: doi:[10.1016/j.jchromb.2018.07.026](https://doi.org/10.1016/j.jchromb.2018.07.026)  
Reference: CHROMB 21299

To appear in: *Journal of Chromatography B*

Received date: 26 October 2017  
Revised date: 20 June 2018  
Accepted date: 20 July 2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

An Optimized LC-MS/MS method for determination of  
HYNIC-3PRGD<sub>2</sub>, a new promising imaging agent for tumor  
targeting, in rat plasma and its application
