Title: Simultaneous determination of lopinavir and three ester prodrugs by LC-MS/MS in lysates of BeWo cells

Author: Meng Wang Matthew S. Halquist Yan Zhang Phillip M. Gerk

PII: S1570-0232(14)00673-4
DOI: <http://dx.doi.org/doi:10.1016/j.jchromb.2014.10.032>
Reference: CHROMB 19181

To appear in: *Journal of Chromatography B*

Received date: 2-6-2014
Revised date: 12-9-2014
Accepted date: 26-10-2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Highlights

- Showed simultaneous LC-MS/MS analysis of three novel prodrugs of lopinavir.
- Demonstrated utility of the method in cellular uptake study in Bewo cells.
- Established and validated assay with isocratic elution.
