Title: The application of on-line two-dimensional liquid chromatography (2DLC) in the chemical analysis of herbal medicines

Authors: Shuai Ji, Shuang Wang, Haishan Xu, Zhenyu Su, Daoquan Tang, Xue Qiao, Min Ye

PII: S0731-7085(18)31085-9
DOI: <https://doi.org/10.1016/j.jpba.2018.08.014>
Reference: PBA 12145

To appear in: *Journal of Pharmaceutical and Biomedical Analysis*

Received date: 8-5-2018
Revised date: 2-8-2018
Accepted date: 7-8-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

The application of on-line two-dimensional liquid chromatography (2DLC) in the chemical analysis of herbal medicines

Highlights

- Classification and general configuration of on-line 2DLC are introduced.
- Applications of LC-LC and LC×LC on chemical analysis of herbs are summarized.
- Future advance in on-line 2DLC applied to chemical analysis of herbs is predicted.
