

## Accepted Manuscript

Title: Determination of residual dimethylsulphoxide in drug loaded gelatin using thermal desorber – gas chromatography

Authors: Adissu Alemayehu Asfaw, Kris Wolfs, Ann Van Schepdael, Erwin Adams

PII: S0731-7085(17)33076-5  
DOI: <https://doi.org/10.1016/j.jpba.2018.02.047>  
Reference: PBA 11815

To appear in: *Journal of Pharmaceutical and Biomedical Analysis*

Received date: 14-12-2017  
Revised date: 21-2-2018  
Accepted date: 21-2-2018

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

# Determination of residual dimethylsulphoxide in drug loaded gelatin using thermal desorber - gas chromatography

Adissu Alemayehu Asfaw, Kris Wolfs, Ann Van Schepdael, Erwin Adams\*

KU Leuven - University of Leuven, Department of Pharmaceutical and Pharmacological Sciences, Pharmaceutical Analysis, Herestraat 49, O&N2, PB 923, 3000 Leuven, Belgium

## Graphical abstract

## Highlights

- Novel approach for determination of DMSO as residual solvent in drug loaded gelatin
- A variant of thermal desorption – gas chromatography was optimized and validated
