This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

TITLE Development and validation of an analytical method using UPLC-MS/MS to quantify everolimus in dried blood spots in the oncology setting

Authors:

Lotte M. Knapen PharmD^{1,2}, Yvo de Beer BSc¹, Roger J.M. Brüggemann PharmD PhD³, Leo M. Stolk MsC PharmD PhD^{1,2}, Frank de Vries PharmD PhD^{1,2,4,5}, Vivianne C.G. Tjan-Heijnen MD PhD^{6,7}, Nielka P. van Erp PharmD PhD³, Sander Croes PharmD PhD^{1,2}
