Title: Application of nuclear magnetic resonance spectroscopy for the detection of metabolic disorders in patients with moderate kidney insufficiency

Authors: Adriana Mika, Wojciech Wojtowicz, Adam Ząbek, Piotr Młynarz, Michal Chmielewski, Tomasz Sledzinski, Piotr Stepnowski

PII: S0731-7085(17)31640-0
DOI: <https://doi.org/10.1016/j.jpba.2017.10.037>
Reference: PBA 11568

To appear in: *Journal of Pharmaceutical and Biomedical Analysis*

Received date: 23-6-2017
Revised date: 17-10-2017
Accepted date: 28-10-2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Application of nuclear magnetic resonance spectroscopy for the detection of metabolic disorders in patients with moderate kidney insufficiency
