

## Accepted Manuscript

Title: High performance liquid chromatographic determination of ultra traces of two tricyclic antidepressant drugs imipramine and trimipramine in urine samples after their dispersive liquid-liquid microextraction coupled with response surface optimization

Author: Mojtaba Shamsipur Mehrosadat Mirmohammadi

PII: S0731-7085(14)00380-X  
DOI: <http://dx.doi.org/doi:10.1016/j.jpba.2014.08.008>  
Reference: PBA 9683

To appear in: *Journal of Pharmaceutical and Biomedical Analysis*

Received date: 22-3-2014  
Revised date: 3-8-2014  
Accepted date: 5-8-2014

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
