Proteomic analysis of an environmental isolate of *Rhodotorula mucilaginosa* after arsenic and cadmium challenge: Identification of a protein expression signature for heavy metal exposure

Sidra Ilyas, Abdul Rehman, Ana Varela Coelho, David Sheehan

PII: S1874-3919(16)30134-8
DOI: doi: [10.1016/j.jprot.2016.04.012](https://doi.org/10.1016/j.jprot.2016.04.012)
Reference: JPROT 2501

To appear in: *Journal of Proteomics*

Received date: 17 September 2015
Revised date: 7 March 2016
Accepted date: 14 April 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Proteomic analysis of an environmental isolate of *Rhodotorula mucilaginosa* after arsenic and cadmium challenge: Identification of a protein expression signature for heavy metal exposure.
