An efficient swarm intelligence approach to feature selection based on invasive weed optimization: Application to multivariate calibration and classification using spectroscopic data

Saheleh Sheykhizadeh, Abdolhossein Naseri

PII: S1386-1425(18)30045-3

DOI: <https://doi.org/10.1016/j.saa.2018.01.028>

Reference: SAA 15747

To appear in: *Spectrochimica Acta Part A: Molecular and Biomolecular Spectroscopy*

Received date: 9 July 2017

Revised date: 8 January 2018

Accepted date: 11 January 2018

Please cite this article as: Saheleh Sheykhizadeh, Abdolhossein Naseri , An efficient swarm intelligence approach to feature selection based on invasive weed optimization: Application to multivariate calibration and classification using spectroscopic data. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Saa(2017), <https://doi.org/10.1016/j.saa.2018.01.028>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**An Efficient Swarm Intelligence Approach to Feature Selection
Based on Invasive Weed Optimization: Application to Multivariate
Calibration and Classification Using Spectroscopic Data**

Saheleh Sheykhizadeh^a, Abdolhossein Naseri^{*a},

^a *Department of Analytical Chemistry, Faculty of Chemistry, University of Tabriz,
Tabriz, Iran*
