Accepted Manuscript

Recent advancements and future trends in analysis of nonylphenol ethoxylates and their degradation product nonylphenol in food and environment

Chunmei LI, Fen JIN, Shane A. Snyder

PII: S0165-9936(18)30194-8

DOI: 10.1016/j.trac.2018.07.021

Reference: TRAC 15206

To appear in: Trends in Analytical Chemistry

Received Date: 7 May 2018

Revised Date: 29 July 2018

Accepted Date: 29 July 2018

Please cite this article as: C. LI, F. JIN, S.A. Snyder, Recent advancements and future trends in analysis of nonylphenol ethoxylates and their degradation product nonylphenol in food and environment, *Trends in Analytical Chemistry* (2018), doi: 10.1016/j.trac.2018.07.021.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.
