

Accepted Manuscript

Thorium and protactinium isotopes as tracers of marine particle fluxes and deep water circulation in the Mediterranean Sea

Sandra Gdaniec, Matthieu Roy-Barman, Lorna Foliot, Francois Thil, Arnaud Dapoigny, Pierre Burckel, Jordi Garcia-Orellana, Pere Masqué, Carl-Magnus Mörth, Per S. Andersson

PII: S0304-4203(17)30212-8
DOI: doi:[10.1016/j.marchem.2017.12.002](https://doi.org/10.1016/j.marchem.2017.12.002)
Reference: MARCHE 3519
To appear in: *Marine Chemistry*
Received date: 20 July 2017
Revised date: 7 November 2017
Accepted date: 8 December 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Thorium and Protactinium isotopes as tracers of marine particle fluxes and deep water circulation in the Mediterranean Sea
