

## Accepted Manuscript

Ultrasonic waveform upshot on mass variation within single cavitation bubble:  
investigation of physical and chemical transformations

Kaouther Kerboua, Oualid Hamdaoui

PII: S1350-4177(17)30582-5  
DOI: <https://doi.org/10.1016/j.ultsonch.2017.12.015>  
Reference: ULTSON 3999

To appear in: *Ultrasonics Sonochemistry*

Received Date: 23 November 2017  
Revised Date: 8 December 2017  
Accepted Date: 9 December 2017

Please cite this article as: K. Kerboua, O. Hamdaoui, Ultrasonic waveform upshot on mass variation within single cavitation bubble: investigation of physical and chemical transformations, *Ultrasonics Sonochemistry* (2017), doi: <https://doi.org/10.1016/j.ultsonch.2017.12.015>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Ultrasonic waveform upshot on mass variation within single cavitation bubble:  
investigation of physical and chemical transformations**
