

## Accepted Manuscript

Development of a glucose sensor employing quick and easy modification method with mediator for altering electron acceptor preference

Mika Hatada, Noya Loew, Yuka Takahashi, Junko Okuda-Shimazaki, Wakako Tsugawa, Ashok Mulchandani, Koji Sode

PII: S1567-5394(17)30559-5  
DOI: <https://doi.org/10.1016/j.bioelechem.2018.02.001>  
Reference: BIOJEC 7110  
To appear in: *Bioelectrochemistry*  
Received date: 5 November 2017  
Revised date: 5 February 2018  
Accepted date: 7 February 2018

Please cite this article as: Mika Hatada, Noya Loew, Yuka Takahashi, Junko Okuda-Shimazaki, Wakako Tsugawa, Ashok Mulchandani, Koji Sode, Development of a glucose sensor employing quick and easy modification method with mediator for altering electron acceptor preference. The address for the corresponding author was captured as affiliation for all authors. Please check if appropriate. Biojec(2017), <https://doi.org/10.1016/j.bioelechem.2018.02.001>

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

## Development of a Glucose Sensor Employing Quick and Easy Modification Method with Mediator for Altering Electron Acceptor Preference
