Increased performance of hydrogen production in microbial electrolysis cells under alkaline conditions

Laura Rago, Juan A. Baeza, Albert Guisasola

PII: S1567-5394(16)30003-2
DOI: doi: [10.1016/j.bioelechem.2016.01.003](https://doi.org/10.1016/j.bioelechem.2016.01.003)
Reference: BIOJEC 6906

To appear in: *Bioelectrochemistry*

Received date: 4 November 2015
Revised date: 27 December 2015
Accepted date: 24 January 2016

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

INCREASED PERFORMANCE OF HYDROGEN PRODUCTION IN MICROBIAL ELECTROLYSIS CELLS UNDER ALKALINE CONDITIONS

Laura Rago, Juan A. Baeza*, Albert Guisasola

GENOCOV. Departament d'Enginyeria Química, Biològica i Ambiental. Escola d'Enginyeria. Universitat Autònoma de Barcelona, 08193, Bellaterra (Barcelona), Spain.

Family names are highlighted in yellow.
