

Accepted Manuscript

An all-solid-state lithium ion battery electrolyte membrane fabricated by hot-pressing method

Pengfei Han, Yuewu Zhu, Jin Liu

PII: S0378-7753(15)00474-7

DOI: [10.1016/j.jpowsour.2015.03.058](https://doi.org/10.1016/j.jpowsour.2015.03.058)

Reference: POWER 20847

To appear in: *Journal of Power Sources*

Received Date: 28 November 2014

Revised Date: 5 February 2015

Accepted Date: 9 March 2015

Please cite this article as: P. Han, Y. Zhu, J. Liu, An all-solid-state lithium ion battery electrolyte membrane fabricated by hot-pressing method, *Journal of Power Sources* (2015), doi: 10.1016/j.jpowsour.2015.03.058.

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**An all-solid-state lithium ion battery electrolyte membrane
fabricated by hot-pressing method**
