Nickel-phendione complex covalently attached onto carbon nanotube/cross linked glucose dehydrogenase as bioanode for glucose/oxygen compartment-less biofuel cell

Aazam Korani, Abdollah Salimi, Hasan Hadadzadeh

PII: S0378-7753(15)00232-3

DOI: [10.1016/j.jpowsour.2015.02.009](https://doi.org/10.1016/j.jpowsour.2015.02.009)

Reference: POWER 20637

To appear in: *Journal of Power Sources*

Received Date: 7 October 2014

Revised Date: 2 February 2015

Accepted Date: 3 February 2015

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

**Nickel-phenanthroline complex covalently attached onto carbon nanotube
/cross linked glucose dehydrogenase as bioanode for glucose/oxygen
compartment-less biofuel cell**
