Lithium barium titanate: A stable lithium storage material for lithium-ion batteries

Xiaoting Lin, Peng Li, Lianyi Shao, Miao Shui, Dongjie Wang, Nengbing Long,
Yuanlong Ren, Jie Shu

PII: S0378-7753(14)02171-5

DOI: [10.1016/j.jpowsour.2014.12.132](https://doi.org/10.1016/j.jpowsour.2014.12.132)

Reference: POWER 20411

To appear in: *Journal of Power Sources*

Received Date: 11 November 2014

Revised Date: 22 December 2014

Accepted Date: 26 December 2014

Please cite this article as: X. Lin, P. Li, L. Shao, M. Shui, D. Wang, N. Long, Y. Ren, J. Shu, Lithium barium titanate: A stable lithium storage material for lithium-ion batteries, *Journal of Power Sources* (2015), doi: 10.1016/j.jpowsour.2014.12.132.

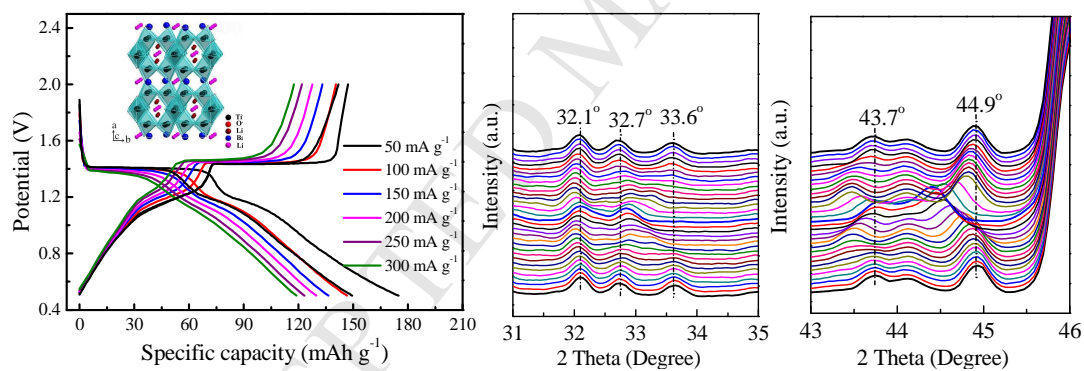

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

Graphical Abstract

Lithium barium titanate: A stable lithium storage material for lithium-ion batteries
