

Accepted Manuscript

Unraveling the formation mechanism of subphthalocyanine.
Density functional theory studies

Chiming Wang, Xin Chen, Dongdong Qi, Siwei Bi, Jianzhuang Jiang

PII: S1387-7003(17)30302-7
DOI: doi: [10.1016/j.inoche.2017.04.025](https://doi.org/10.1016/j.inoche.2017.04.025)
Reference: INOCHE 6631

To appear in: *Inorganic Chemistry Communications*

Received date: 13 April 2017
Revised date: 26 April 2017
Accepted date: 28 April 2017

This is a PDF file of an unedited manuscript that has been accepted for publication. As a service to our customers we are providing this early version of the manuscript. The manuscript will undergo copyediting, typesetting, and review of the resulting proof before it is published in its final form. Please note that during the production process errors may be discovered which could affect the content, and all legal disclaimers that apply to the journal pertain.

***Unraveling the Formation Mechanism of Subphthalocyanine.
